Before taking advantage of nature's benefits, nature must first be respected and protected.

We bring cosmetic industry players around the world the best that nature has to offer, with innovative products that preserve biodiversity and contribute to restoring it.

We develop our cosmetic ingredients with sensorial appeal that are 100% naturally derived and contribute to physical and mental well-being.

Our demanding pharmaceutical culture ensures our customers the highest level of quality, effectiveness, safety and stability. We act daily to achieve a lighter ecological footprint, and we have committed our cosmetic active ingredients business to contribute to global carbon neutrality by 2030.
